Whey Protein Isolate Facts:

Whey protein isolate is produced by extracting the pure amino acids from milk proteins leaving behind all of the sugar (lactose), fat, and cholesterol. The result is a lactose-free protein that is the purest, cleanest, most easily absorbed protein known to man. It has the highest bio-value of any protein available. Whey protein isolate is the richest source of the 8 essential amino acids and branched-chain amino acids your body needs for growth, energy, and vibrant health.

The Smoothie Series Formula:

Our team of experts at Canada Whey Inc. has used a combination of unparalleled product experience and the latest technological innovations to combine quality and taste in one amazing formula. Canada Whey Smoothie Series formula has one of the highest percentages of whey protein isolate in the market today. At Canada Whey Inc., we use only cold-processing technology, which does not denature the whey protein, nor deprive it from its bioactive components.

Suggested Use: Mix 1 to 2 scoops in water, milk, juice or your favourite smoothie. For great-tasting smoothie recipes, please visit canadawhey.com

Mode D'emploi:

Ajouter 1 ou 2 mesures dans de l'eau, du lait, du jus, ou dans votre smoothie favori. Pour des recettes délicieuses, veuillez nous visiter chez canadawhey.com
